

Company Profile

Established in 2003, Gold Line Group Ltd (Israel) is a leading international provider of comprehensive end-to-end IT encryption solutions. Gold Line Group Ltd offers a unique global delivery model of innovative, high-quality, security solutions that enable individuals and organizations to attain sustainable competitive advantage by effectively defending and securing their communication and IP.

Based in Rehovot (City), Israel, Gold Lock employs over 30 highly experienced specialists, including security software developers, tactical mathematicians, and military trained analyzers in the field of strategic encryption. Its flagship product - Gold Lock™ Mobile Encryption is constantly certified by independent tests and licensed by the Israeli government (Ministry Of Defense).

Gold Lock is used to protect communication for thousands of customers around the world, including Private, Corporate, and governmental organizations.

Besides its line of advanced encryption products for mobile communication, Gold Line Group Ltd. is a certified leading provider of customized security solutions for governmental and military organizations around the world.
